ABOUT ME

I am a Full-Stack Developer skilled in MERN stack, UI/UX design, and blockchain development. I specialize in building scalable, user-friendly, and innovative web solutions. Passionate about problem-solving, I stay updated with the latest technologies to create impactful digital experiences.

PORTFOLIO:

PROJECTS

CareSlotter

Role: Full-Stack Developer

Tech Stack: React.js, Node.js, Express.js.

- CareSlotter is a seamless doctor appointment booking system built with React, Node.js, Express, and MongoDB. It offers real-time appointment scheduling, secure payments, and teleconsultation options for patients and doctors. With an intuitive UI and admin dashboard, it enhances healthcare accessibility and efficiency.

Resume Builder

Role: Full-Stack Developer

Tech Stack: React.js, Node.js, Express.js.

- Your Resume Builder website is a user-friendly platform that helps users create professional, ATS-friendly resumes effortlessly. It offers customizable templates, real-time previews, and easy export options. Built with a modern tech stack, it streamlines the resume creation process for job seekers.

YouTube Clone

Role: Full-Stack Developer

Tech Stack: React.js, Node.js, Express.js.

- Description: A YouTube inspired video streaming platform where users can search, view, and filter videos based on categories and queries. Includes interactive features like suggested video buttons, a functional sidebar, and seamless video playback.

ADDITIONAL FRONTEND CLONES

Developed static frontend clones of popular websites and applications, including Shopsy, Amazon, Working Calculator, Chess Board, Ludo, Netflix, Spotify, Sudoku, and Superover Board.
